

**2007 October
Squamish Valley ArtWalk**

Squamish Valley annual ArtWalk Studio and Gallery Tour was a huge success. This wonderfully varied art collection included paintings, sculpture, drawings, stained glass, design, woodworking, pottery, mixed media, photography, woven copper, and Italian glass mosaics. With 16 venues around town and over 20 artists showcasing their work, there was lots to see. Visitors (local and from as far away as Italy) who attended 11 or more of the venues were able to enter a draw to win one of six prizes. This was a great way to spend the day and be inspired and awed by some of the incredible talent in our corridor. Comments were received such as "The quality of the work was wonderful", "The diverse works by the different artists in one show made it very interesting", "Seeing the actual studios brought a new dimension to how I see art", "It's amazing that these artists live in our backyard!", "We need a permanent gallery space for our artists!". For more information go to www.squamishart.com.
